### PECUNIA PROM-MH Compendium

The PECUNIA Patient-Reported Outcome Measure-Mental Health Compendium (**PECUNIA PROM-MH Compendium**) is a Microsoft Excel<sup>®</sup>-based electronic library of non-disease specific PROMs used in MH research. It provides meta-data information of existing, publicly available generic PROMs suitable for use in (mental) health research and their applicability in multi-sectoral, multi-national and multi-person (economic) evaluations. The PECUNIA PROM-MH Compendium was developed by the Department of Health Economics, Center for Public Health, Medical University of Vienna as part of the Horizon 2020 research project [PECUNIA](#) (Programme in Costing, resource use measurement and outcome valuation for Use in multi-sectoral National and International health economic evaluations - GA No 779292).

The PECUNIA PROM-MH Compendium is available free-of-charge for non-commercial research, healthcare and academic teaching activities following registration.

Anyone who wish to use the PECUNIA PROM-MH Compendium for the above purposes should

- complete the electronic **Registration Form** below and
- accept the **Non-Commercial Terms of Use**.

Applicants will then be provided with the requested version of the compendium via email.

In case of interest for the commercial use of the PECUNIA PROM-MH Compendium, interested parties should contact the developers via e-mail at [pecunia@meduniwien.ac.at](mailto:pecunia@meduniwien.ac.at) first.

Use of the PECUNIA PROM-MH Compendium should be referenced in all resulting work/publications as outlined at <https://www.pecunia-project.eu/tools/prom-mh-compendium>.
